Cut-paper logo; editorial display; calm utility typography. A three-speed typography system.

DISPLAY / ART-DIRECTED

Use Noto Sans Display Condensed Black or a custom assembled collage headline. Overscale deliberately.

INTERFACE / INTER

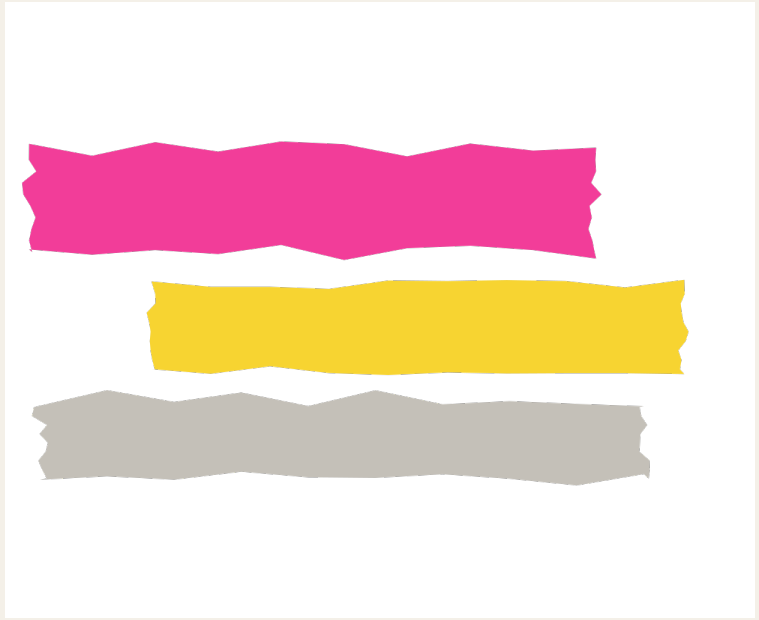

Use a legible sans-serif for product titles, forms, prices, and filters. Do not distress utility text.

MICROTYPE / CAPS

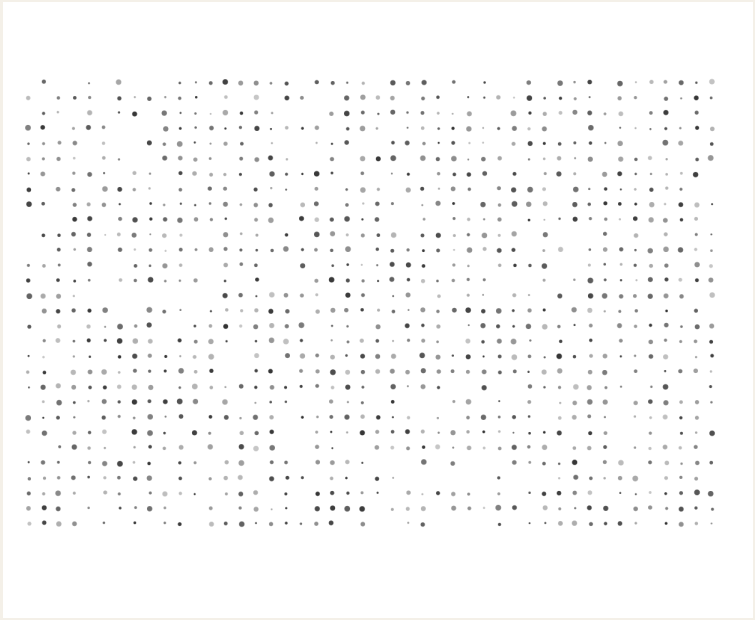

Annotations, issue numbers, drop labels, and product notes. Keep line height generous.

PHOTOCOPIED. RIPPED. REASSEMBLED.

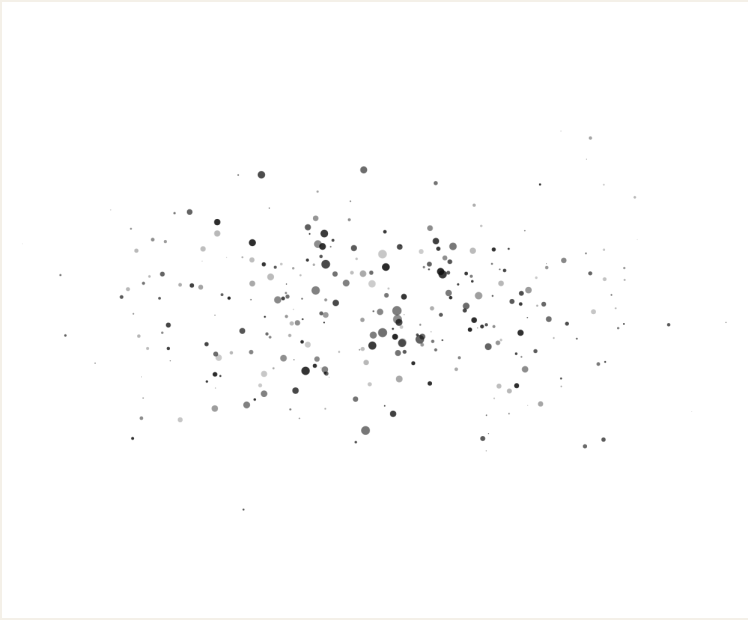

A repeatable asset system - not random dirt placed over every page.
